

/home/santiago/Documents
/ie0217-proyecto/src/menus.hpp

```
graph BT; A["/home/santiago/Documents  
/ie0217-proyecto/src/aplicacion.cpp"] --> C["/home/santiago/Documents  
/ie0217-proyecto/src/menus.hpp"]; B["/home/santiago/Documents  
/ie0217-proyecto/src/menus.cpp"] --> C;
```

The diagram illustrates a dependency relationship between three source files. At the top, a grey-shaded box represents the header file `menus.hpp`. Below it, two white boxes represent source files: `aplicacion.cpp` on the left and `menus.cpp` on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include or depend on the header file.
